

Mike Stirm II

Creative Technologist

Downingtown, Pennsylvania – (609) 335-8408 – mstirmii@gmail.com

www.linkedin.com/in/michael-stirm-ii-169a03395

Professional Summary

Creative Technologist with a background in education, libraries, and digital learning, specializing in technology-enabled knowledge and learning experiences. Skilled in instructional design, web development, digital humanities workflows, and AI-assisted content systems, including LLM-based tools, generative media, and automation platforms. Combines humanities-driven research, creative practice, and technical fluency to design human-centered digital systems that translate complex ideas into accessible, engaging learning resources.

Core Skills & Tools

AI & Automation

Prompt Engineering • Workflow Automation • LLM Integration • Chatbot/Agent Design • Persona Modeling • AI Content Pipelines • API Automation • RAG Fundamentals • Generative Video/Audio Automation

Tech Stack & Tools

Python • Node.js • Express • JavaScript • HTML • CSS/Sass • PHP • WordPress • MongoDB • Git • Webpack • Netlify • REST APIs

AI Tools

OpenAI GPT Models • Claude • Midjourney • Leonardo AI • Haiper • HEDRA • Suno • ElevenLabs • Runway • Make.com • Zapier • HuggingFace Tools

Creative & Instructional

Storytelling • Multimedia Production (Adobe Premiere Pro) • UX/UI Design • Instructional Design • System Architecture • Research & Analysis

Work History

Creative Technologist | Self-Employed, Remote July 2024 – Present • Designs and implements AI-enabled creative and educational systems for the David's Harp YouTube channel. • Builds end-to-end digital production pipelines for video, audio, and visual media using generative tools, reducing production time by approximately 60%. • Develops automated research, writing, and ideation workflows supporting narrative, instructional, and persona-driven content creation. • Creates structured prompt frameworks to support storytelling, inquiry-based Q&A, and reflective or devotional learning experiences.

Web Developer | Freelance, Remote September 2018 – Present • Build responsive digital systems using HTML, CSS/Sass, JavaScript, PHP, Node.js/Express, and MongoDB. • Designed and deployed a custom WordPress course-community platform with REST APIs

and role-based publishing features. • Integrated external APIs (SurveyMonkey, Google Maps, analytics tools) to expand platform functionality. • Produced UX wireframes and optimized workflows using Git, Webpack, and Netlify.

Maintenance Technician | The Westover Companies, Downingtown, PA December 2023 – Present • Troubleshoot and repair electrical, plumbing, HVAC, and structural systems for a 17-building residential community. • Maintained a 95%+ on-time completion rate for service tasks. • Reduced contractor dependency through in-house diagnostics and repair. • Contributed to award-winning performance recognized by the Pennsylvania Apartment Association.

Owner and Operator | Bavarian Mechanical, Greater Philadelphia July 2024 – Present • Maintained a 5-star rating across 140+ customer reviews. • Performed diagnostics, repairs, scheduling, and invoicing independently. • Resolved complex mechanical and electrical issues quickly and efficiently. • Managed operations, documentation, and customer communication.

Adjunct Professor of English | Saint Joseph's University, Philadelphia, PA August 2019 – December 2020 • Taught first-year writing to 180+ students with emphasis on research and analytical skill development. • Built a custom learning portal reducing student inquiries by 50%. • Provided individual coaching to improve clarity, structure, and argumentative writing. • Integrated digital workflows for assignments, grading, and communication.

Education & Certifications

• TripleTen AI Automation Bootcamp (In Progress) • Master of Information — Rutgers University • MA in English — Rutgers University • BA in English, Economics Minor — Saint Joseph's University • Professional Scrum Master I — Scrum.org • Google Analytics Certified
