## Technical Projects

### AI & Education Current Awareness Dashboard | [aiedudashboard.lovable.app](https://aiedudashboard.lovable.app)

#### AI-powered dashboard for librarians monitoring AI and higher-education developments

- Designed a cloud-backed web app aggregating live AI and higher-ed news with transparent sourcing
- Implemented secure server-side APIs, caching, and rate limits to ensure reliability and safe data use
- Guided LLM outputs to generate cautious, librarian-oriented insights supporting professional judgment

### Instruction Assistant | [docs.google.com/presentation/d/1hnGo2wBWldt7XBS9EOJ4xIzAI5y1-E\\_622oGyIJ4cTg](https://docs.google.com/presentation/d/1hnGo2wBWldt7XBS9EOJ4xIzAI5y1-E_622oGyIJ4cTg)

#### Project Description [Target user and user experience]

- Built an automated workflow retrieving new scholarly articles via API and interpreting themes with LLMs
- Translated research into ACRL-aligned teaching outputs including activities, prompts, and citations
- Delivered concise weekly email briefings reducing manual scanning and supporting timely instruction

### AI Ethics Navigator Chatbot | [aiethicsnavigator.zapier.app](https://aiethicsnavigator.zapier.app)

#### Domain-specific LLM chatbot for ethical AI guidance

- Designed a chatbot using a custom scholarly knowledge base to deliver context-grounded ethics guidance
- Configured directives, tone, and fallback logic to ensure accurate and consistent responses
- Tested conversational scenarios to demonstrate responsible AI design and system governance

## Professional Experience

### AI Automation Specialist (Student), TripleTen, Remote 12/25 - Present

- Designed and deployed AI-powered applications and chatbots using LLMs, no-code automation tools, and custom knowledge bases.
- Built scalable automation workflows integrating APIs, webhooks, and data pipelines to support educational and research systems.
- Applied prompt engineering, conversational design, and testing methodologies to ensure ethical, accurate, and user-centered AI tools.

### Web Developer, Self-Employed, Remote 09/18 - Present

- Designed and developed responsive, accessible websites using HTML, CSS, and JavaScript for academic and professional use.
- Implemented user-centered design and accessibility best practices to improve usability and information access.
- Managed deployment, version control, and hosting using GitHub and Netlify.

### Adjunct Professor of English, Saint Joseph's University, Philadelphia, PA 08/19 - 12/20

- Designed and taught undergraduate writing and communication courses for 180+ students.
- Built a custom online course portal using WordPress, JavaScript, and REST APIs, reducing student inquiries by 50%.
- Integrated digital literacy, research practices, and ethical information use into course design.
