SUMMARY

Creative Technologist with a background in academic libraries, higher education, and digital learning systems, combining an ALA-accredited Master of Information with hands-on experience in AI automation, web development, and instructional design. Specializes in translating complex scholarly and instructional content into accessible, user-centered digital experiences. Proven ability to design scalable learning workflows, AI-assisted knowledge systems, and automation pipelines that improve clarity, efficiency, and engagement.

EXPERIENCE

Creative Technologist

Self-employed

July 2024 – Present

- Designs and delivers technology-enabled learning and storytelling systems that integrate AI tools with humanities-centered inquiry, supporting writing, research, and media production.
- Builds end-to-end AI-assisted workflows for script development, generative imagery, voice synthesis, music generation, and animation, supporting ongoing content production for an educational YouTube channel.
- Develops domain-specific LLM chatbots with custom knowledge bases, structured prompt frameworks, and JSON-based outputs to improve accuracy and usability.
- Implements automation pipelines using Make, Google Forms, GoogleSheets, and Gemini AI, reducing manual analysis and feedback time by an estimated 40%.
- Applies conditional logic and repeatable system architectures to create scalable, reusable AI-enhanced learning tools.

Web Developer

Self-employed

September 2018 – Present

- Designs and builds production-ready digital systems that integrate front-end development, REST APIs, and workflow optimization to support scalable, user-centered applications.
- Develops responsive websites and platforms using HTML, CSS/Sass, JavaScript, PHP, Node.js, Express.js, MongoDB, and WordPress theming, supported by modern tooling including Git, Webpack, and Netlify.
- Architects WordPress-based platforms with custom authentication logic, REST-powered features, interactive JavaScript tools, and third-party API integrations (e.g., Google Maps, SurveyMonkey).
- Translates user needs and instructional goals into functional, automated digital experiences that improve usability, clarity, and task efficiency.
- Structures information and interfaces to support scalability, maintainability, and intuitive navigation across learning and community-driven platforms.
- Applies UX design principles and analytics-informed insights to refine workflows, streamline processes, and enhance user success across digital systems.

Adjunct Professor of English

Saint Joseph's University

August 2019 – December 2020, Philadelphia, Pennsylvania, United States

- Designed and taught writing and communication courses for 180+ students.
- Built a custom online learning portal using WordPress, JavaScript, REST APIs, and multimedia assets, reducing student inquiries by approximately 50%.
- Developed project-based assessments and structured content pipeline emphasizing ethical information use and digital literacy.

Outreach Assistant

Cape May County Library

August 2017 – February 2018, Cape May Court House, New Jersey, United States

- Developed and implemented digital and community outreach initiatives that expanded awareness and use of library resources through multimedia content, including YouTube videos, social media campaigns, and informational guides.
- Produced clear, accessible digital materials that translated library services and technologies into user-friendly formats for diverse audiences.
- Facilitated technology-driven programs, including Virtual Reality sessions, by training participants, coordinating schedules, and managing equipment.
- Designed and delivered targeted outreach initiatives for seniors and community groups, contributing to increased engagement and service utilization.
- Collaborated on public exhibits and programs, including a Black History Month exhibit, integrating research, archival materials, and digital media to enhance community impact.

Library Associate

Atlantic County Library System

February 2013 – August 2017, Atlantic County, New Jersey, United States

- Led a multi-branch programming committee, coordinating large-scale initiatives that strengthened community engagement, improved service delivery, and expanded access to educational resources.

- Managed grant-funded projects and organized region-wide events, contributing to increased public participation across the library system.
- Designed and delivered adult education programs that supported lifelong learning and community needs.
- Facilitated job-readiness workshops and one-on-one digital skills training, helping residents navigate online tools, evaluate information, and adopt new technologies.
- Collaborated with staff and community partners to align programming with organizational goals and maximize outreach impact.

Adjunct Instructor of Writing & Research (Multiple Institutions)

Stockton University, Atlantic Cape Community College, Camden County College

August 2009 – May 2015

- Taught undergraduate writing, reading, and research courses focused on information literacy, critical analysis, and academic communication.
- Designed curricula integrating research strategies, source evaluation, and iterative drafting.
- Built custom course websites and digital resources that streamlined instructional workflows and reduced student email volume.
- Implemented portfolio-based assessment models demonstrating measurable learning outcomes.

Library Assistant

William J. Spangler Library at Atlantic Cape Community College

January 2012 – September 2013, Mays Landing, New Jersey, United States

- Led 30+ customized research workshops for first- and second-year students, strengthening information literacy, research skills, and academic confidence.
- Collaborated with faculty to design interactive digital content and research guides that supported course objectives and improved student access to library resources.
- Analyzed usage patterns and participant feedback to identify gaps and recommend targeted improvements to instructional materials and services.
- Facilitated staff training sessions during Faculty Development Day, increasing engagement with library resources and strengthening cross-departmental collaboration.
- Contributed to improved research support workflows through clear documentation and user-focused instructional design.

EDUCATION

Master's degree, Information

Rutgers University–New Brunswick • August 2014 – October 2018

Master's degree, English Language and Literature, General

Rutgers University – Camden • September 2009 – January 2012

Bachelor's degree, English Language and Literature, General

Saint Joseph's University • August 2005 – May 2009

English Language and Literature, General

The American University of Rome • January 2008 – May 2008

CERTIFICATIONS

TripleTen AI Automation Bootcamp (In Progress)

TripleTen • 2026

- Hands-on bootcamp focused on building practical AI automation skills, including prompt engineering, no-code AI tools, LLM applications, AI-driven task automation, data integration, APIs/WebHooks, and Robotic Process Automation (RPA).

Professional Scrum Master I (PSM I)

Scrum.org • 2021
